DERIVED VARIABLE

unique household ID in Wave 1

hhsize

H1. Please tell me how many people in total there are in your household.

A household consists of individuals usually residing in the flat or house and sharing household expenses, i.e. covering jointly the costs of their needs such as meals, housing costs or other costs of running a household (including household members benefiting from expenses but not contributing to expenses, e.g. children, persons with no income).

Persons regarded as household members (given shared expenses):

1 **persons who usually reside in the flat (have spent most of their time out of school/work in the flat in the past 6 months or are planning to do so over the next 6 months);**

2 **lodgers and visitors currently having no private address elsewhere or intending to stay in the surveyed flat for at least 6 months;**

3 **persons working or studying away from home over a long period, irrespective of the duration of absence, having no private address elsewhere and maintaining close relations with the surveyed household;**

4 **persons staying in a hospital or another institution for a long period, if staying away for less than 6 months and having close financial relations with the household.**

Write in number.

debt

H40. How much is the total outstanding amount of your mortgages or housing loans on all the properties your household owns or owned, including that which you currently live in? This question concerns also properties you may have owned in the past.

If the respondent does not know the exact figure or can't remember, probe: Could you try to give me an approximate amount plus/minus 10%?

If the respondent believes that they already answered the question, explain to them that the previous question(s) dealt with properties presently owned, whereas this one also concerns properties that the household may no longer own.

The household may have owned a flat/house and lost it in the past, still having to pay a mortgage or loan taken out to buy it. Alternatively, the household may have guaranteed a loan for someone else who failed to repay it. The household thus may have to repay a housing loan without owning the property at present.

Write in CZK, not in hundreds, thousands, etc.
