P44. What was his/her mother's job at the time he/she was about 16 years old?

Describe in words the main job. Record as much detail as possible, for example, "motor plant assembly line operator". For self-employed persons, specify industry/subject of activity.

If the person's parent had more than one job, ask about the one which occupied them for the most hours per week. If they had two jobs that occupied them for the same number of hours, ask about the more highly paid job.
