

## ISSP Study Description Form

### ISSP 2004 ON CITIZENSHIP, CZECH REPUBLIC

*Study title:* ISSP 2004 Citizenship (ISSP 2004 Obcanstvi)

*Fieldwork dates:* 27th September - 29th October 2004

*Principal investigators:* Petra Rakusanova, Institute of Sociology of the Academy of Sciences

*Sample type:* Three stage stratified probability sampling:  
 1) Stratified probability sampling of election districts  
 2) Probability sampling of households in selected district  
 3) Sampling of household members based on a Kish grid

*Fieldwork institute:* SC&C s.r.o., Prague

*Fieldwork methods:* Face-to-face interview

*Sample size:* 1322

*Response rates:*

2965	A - Total issued (total sample)
144	B - Ineligible (address vacant, wrong ages,...)
2821	C - (= A - B) Total eligible (in scope sample)
1322	D - Total ISSP questionnaires received
1499	E - (= C - D; = F + G + H) Total non-response
740	F - Refusals (refusing to take part)
618	G - Non-contact (never contacted)
141	H - Other non-response

*Language:* Czech

*Weighted:* yes

*Weighting procedure:* Total weight is constructed from:  
 1) design weights based on proportion of household sizes,  
 2) post-stratification weights based on region, sex, education, age, economical activity, and size of the community.  
 The weights were derived from data of the Czech Statistical Office.  
 Method: raking based on loglinear modelling.

*Known systematic properties of the sample:* Due to response differences the basic socio-demographic characteristics - sex and education - are significantly different from the known population characteristics.

*Deviations from ISSP questionnaire:* No deviations in the questionnaire. There are new value codes for CZ\_PRTY and CZ\_DEGR, which differ from the ISSP 2004 standard setup. Information on coding can be found in the "cz04info.doc".

Specification of income variables:

RINCOME: Total average net income of respondent per month in CZK. It includes incomes from main job or business, incomes from additional gainful activities or property, rents, social incomes as are unemployment benefits, maternal benefits, allowances, etc. It does not include child allowances and state compensatory benefits for children. Income asked in categories, i.e. midpoints of categories are coded.

INCOME: Total average net income of household per month in CZK. It includes incomes and rents of all members of household and all social benefits, allowances and complementary incomes. Income asked in categories, i.e. midpoints of categories are coded.

*Publications:* not yet
