

Details about issued sample:

Please follow the standards laid down in AAPOR/WAPOR, Standard Definitions: http://www.aapor.org/uploads/standarddefs_4.pdf. The numbers in the parentheses are those used in Tables 2 and 3 of Standard Definitions.

Total number of starting or issued names/addresses (gross sample size) *	3230
1. Interviews (1.0)	1804
2. Eligible, Non-Interview	
A. Refusal/Break-off (2.10)	711
B. Non-Contact (2.20)	82
C. Other	
i. Language Problems (2.33)	4
ii. Miscellaneous Other (2.31, 2.32, 2.35)**	110
3. Unknown Eligibility, Non-Interview (3.0)	176
4. Not Eligible	
A. Not a Residence (4.50)	71
B. Vacant Residence (4.60)	42
C. No Eligible Respondent (4.70)	0
D. Other (4.10,4.90)***	230

* When new sample units are added during the field period via a new dwelling units list or other standard updating procedure, these additional issued units are added to the starting number of units to make up the total gross sample size. Also, when substitution is used, the total must include the originally drawn cases plus all substitute cases. See AAPOR/WAPOR Standard Definitions, pp. 9-10 for further clarification.

** Including 16 finished interviews which were not included to final sample (due to high rate of refusal/DK/missing values in substantial variables or other flaws).

*** Research agency used a probability-based method for eliminating part of the selected one-member households before the interviewing process, which serves to reduce higher probability of interviewing old one-member HH respondents in address-based probability sampling. Eliminated unused addresses are included in category 4.D – Other.
