Study Monitoring Questionnaire

PLEASE COMPLETE THIS QUESTIONNAIRE FOR THE
CITIZENSHIP II
ISSP MODULE

NOTE:

If most of the details of your ISSP survey are the same as for your previous module, simply update the SMQ for this previous module with the information for the current module and highlight the changes you have made.

Change the title of the SMQ to the title of the current ISSP module and modify the footer as well. Then return the updated SMQ as an email attachment.

Questionnaire Languages

3a. Was the questionnaire fielded ...

only in English → Question 12

in English plus other language(s) → Question 3b

only in translation → Question 3b

3b. Please enter the language(s) the module was fielded in.

Please write in: Czech

Translation

Note: If your translation process was different for different languages, please answer questions 4 to 10 for your most common practice and note any differences for other languages in question 11.

4. Was the questionnaire ...?

a written translation (a questionnaire/application) → Question 5

an oral translation (interviewer translated on the spot) → Question 11

5. Who carried out translation? Please tick all that apply.

A member or members of the research team

A translation bureau

One or more specially trained translators

Other (please write in details)

6. Was translation checked?

Yes, all of the questionnaire → Question 7

Yes, only the new questions → Question 7

No → Question 8

7. How was translation checked?

Group discussion

Expert checked it

Back translation

Other (please write in details)

Please write in:

8. Was the translation questionnaire pre-tested?

Yes

No

9. Were there any questions, sections, words or concepts which caused problems when translating? Please tick all that apply.

No problems →Question 11

Answer scales

Instructions

Whole questions

Words or concepts

Other (please write in details)

Please write in details of problems checked/ticked above:

10. What did you do about any problems in translation?

Please enter details:

11. If your translation process was different for different languages, please note any differences for other languages in the box below.

Please enter details:

Fielding the ISSP Module

12. How was the ISSP module fielded in your country?

As an individual survey (that is, the ISSP module was the whole survey) →Question 15

As part of a larger survey →Question 13

13. Please provide information about the other stud(ies) the ISSP was fielded with (e.g., topic, survey name).

Please enter:

14. What was the approximate position of the module in the larger questionnaire?

Start of questionnaire

Middle of questionnaire

End of questionnaire

15. Were the substantive questions in the module all asked in the prescribed order?

Yes → Question 17

Yes, apart from omissions → Question 17

No → Question 16

16. Why was the question order changed?

Please enter:

17. Were all the core ISSP questions included in your questionnaire (by core we mean all required substantive and background questions)?

Yes – all questions and background questions included → Question 19

No – substantive question(s) from module missing → Question 18

No – required background ISSP question(s) missing → Question 18

18. Please provide details of the questions missing and indicate why they are missing.

ISSP source questionnaire: question number or description of question:

Reason(s) why missing:

Sampling

19. Was your sample designed to be representative of ...

Only adult citizens of your country?

Adults of any nationality residing in your country?

20. Was your sample designed to be representative of ...

Only adults living in private accommodation? → Question 21

Adults living in private and in institutional accommodation
(e.g., residential homes for the elderly, asylum accommodation)?

If private and institutional, please enter details in box below.

Please enter in:

21. What was the lower age cut-off for your sample?

WRITE IN :

22. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

23. Were any groups excluded or under-represented in your sample design, apart from the age cut-offs or citizenship requirements just asked about?

No

Yes (please write in details)

If yes, write in details:

24. Did you use any variables for stratification?

Yes → Question 25

No → Question 26

25. Please describe the stratification variables used?

Please write in:

NUTS2 and type of municipality

26. How many of stages did your sampling design have?

One stage

Two stages

Three stages

Four stages

27. Did your sampling frame consist of...?

Addresses

Households

Named individuals (the target persons)

Named individuals (not the target persons)

Areas

Something else (please write in details)

28. Please describe your sampling frame (e.g., population register, electoral roll, telephone directory and its coverage and updating).

Please write in:

Territorial Identification Register of Buildings and Addresses (RUIAN), version spring 2014 was used. RUIAN is the database of streets and buildings within the streets in the localities (cities, villages) of the Czech Republic. The number of dwelling units is also included. Locations with less than 200 inhabitants are excluded (only 1,7 % of inhabitants of the CR). Variables from Census 2011 data (eg. number of inhabitants 18+) have been attached.

29a. Please describe your sampling method and your sampled units for the first stage?

Please write in:

WE used complex samples module in IBM SPSS. Method was Systematic Probability proportional to size and our sampled units were clusters of streets (sampling points).

29b. Please describe your sampling method and your sampled units for the second stage?

(Only if you have two or more stages, otherwise continue with question 30.)

Please write in:

Secondary sampling units were households within clusters. Method used was Simple Random.

29c. Please describe your sampling method and your sampled units for the third stage?

(Only if you have three or more stages, otherwise continue with question 30.)

Please write in:

We used Kish grids for random selection of the respondent.

29d. Please describe your sampling method and your sampled units for the fourth stage?

(Only if you have four stages, otherwise continue with question 30.)

Please write in:

30. What selection method was used to identify a respondent?

(Do not answer if your sampling frame consists of named individuals – which are the target persons. Continue with question 32.)

Kish grid

Last (or next) birthday

Quota

Other (please write in details)

31. Please describe your quota procedures.

(Only if you used quota, otherwise continue with question 32)

Please write in:

32. Was substitution or replacement permitted at any stage of your selection process or during fieldwork?

Yes

→Question 33

No

→Question 34

33. Please provide details of the substitution or replacement procedures used.

Please write in:

34. All in all, what are the known limitations (biases) of your net sample?
For example: is there differential coverage of particular groups, either because of sample design or response differences?

Please write in:

There are no known limitations of the net sample. Anyway, ctive people interested in politics might have been more open to participate.

Data Collection

35. What data collection methods were used for the module (substantive and background questions)?

Face-to-face

Self-completion (with some interviewer involvement in delivering or collecting)

'Mixed mode': part self-completion, part face-to-face (please write in details)

Other (please write in details)

If 'mixed mode' or other, please write in:

36. Please write in the approximate start and end dates of fieldwork.

DD MM YY

Start date

End date

37. Were postal or telephone components used at any point (e.g., advance contacts)?

Yes - postal → Question 38

Yes - telephone → Question 38

No → Question 39

38. Please give details of the postal and/or telephone components.

Please enter details:

Postal contact was used in case of refusals.

39. Were incentives offered?

Yes, to respondent

Yes, to interviewer

No, neither to respondent nor to interviewer

Interviewer Procedures

40. Were interviewers paid according to realized cases?

Yes

No

41. Which, if any, of these rules governed how an interviewer approached an address/household?

Tick all that apply

Calls/visits must be made at different times of day

Calls/visits must be made on different days of week

Neither of the above

42. Were interviewers required to make a certain number of calls/ visits before they stopped approaching an address or household?

Minimum number of calls/visits required - please write in number

No minimum call requirement

43. Were any interviews supervised (that is, supervisor accompanies interviewer)?

Yes - please write in approximate proportion %

No

44. Were any interviews back-checked (e.g. supervisor checks later whether interview conducted)?

Yes - please write in approximate proportion %

No

Response and Outcome Information

Coding and Verifying

46. Were any measures of coding reliability employed?

Yes

No

47. Was keying of the data verified?

Yes - please write in approximate level of verification %

No

48. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?

Yes

No

No derived variables

49. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes

No

50. Were data checked/edited for logic or consistency?

Yes

No

51. Were data checked/edited to ensure they fell within permitted ranges?

Yes

No

**If you answered YES for any question from Q46 to Q51, continue with Question 52.
If you answered NO for all questions Q46 to Q51, continue with Question 53.**

52. Were errors corrected?

Tick all that apply

Yes - individually

Yes - automatically

No - not corrected

53. Were the data weighted or post-stratified?

Yes → Question 54

No → Question 55

54. Please briefly describe the weighting or post-stratification strategy used.

Please write in:

Data include design weight calibrated to number of cases. Post-stratification weights were also used – based on RIM Weighting (NUTs2+ 3 education levels, NUTS2 + 4 location size categories, 5 age categories+ gender

55. Is a national methods report available for your study?

Yes

No

56. If there is anything you would like to comment on, please do so here.

Please write in:

People in the Czech Republic are very sensitive to political issues. They are also contacted very often and asked to participate in many surveys.

Combination of incentive methods, promotion and letters was very helpful. Anyway, respondents would appreciate feedback – information about the previous wave as well as the results of this wave.

THANK YOU VERY MUCH
